LR 218, 103

voting yes. Senator Rod Johnson voting yes.

PRESIDENT: The Clerk will record.

CLERK: 25 ayes, 6 nays, Mr. President.

PRESIDENT: The motion carried and the resolution is adopted. The Call of the House is raised. We proceed to LR 103.

CLERK: 103 on page 1965 offered by Senator Goodrich.

PRESIDENT: Senator Goodrich. Can we have order in the Chamber and attention to the speaker, please. (Gavel.)

SENATOR GOODRICH: Mr. President and members of the body, LR 103 is a resolution dealing with Morrill Hall at the UNL campus. Morrill Hall, as you will all recall, is the one where they have got all the bones stored, all the artifacts...well, with one notable exception, Senator Barrett isn't there yet. You will all recall that we passed LB 410 a while back here, a couple, three or four days ago, and LB 410 authorized the issuance of some bonds for reconstruction of Bessie Hall, the old architect's building, the old law building. When they issue that bond issue they will then not be able to put all that money out in one fell swoop because they will just put it out as the construction progresses but the bond issue will produce some money. They will put it in an investment. If we pass this resolution which designates Morrill Hall as an authorized project, they can use the interest off of the revenue bond issue to get started with the project of air conditioning and temperature control and atmosphere control in that building so they can arrest the decomposition of the bones and the artifacts and that sort of thing in Morrill Hall. I move the adoption of the amendment...of the motion, rather.

PRESIDENT: Senator Cullan.

SENATOR CULLAN: Mr. President, would Senator Goodrich yield to a couple of questions, please.

PRESIDENT: I am sure he would.

SENATOR GOODRICH: Yes.

SENATOR CULLAN: Senator Goodrich, does this request them to do something or the other, or what is...does this have
